

Immoor "In Tow"

Visit "[In Tow](#)" on MotoLyrics.com

Shutting down reactors and get
I'll go get packing again
We've been waiting for the time
That this would happen to us, my friend

Crack and move and it's you
And it's time to be out
Back it up, get your heart, box it in
Shut it down

Cancel out all the things
That would bring you back up
Don't you try, you'll know why
When you run out of luck

Too much in, I'm stuck in
This landslide, in your eyes
You kindly remind me
Of the time, past the line

It seems that you won't last
You're not real, dreams I'll steal
Untie me, so I see
Cut me loose
