Hit me, hit see, I'm in the ground  
Swimming in the floor below  
Lovely outside, someone just died rolling around

It's someone you didn't know  
Letting you down  
Something I've found  
Digging inside

Tell me when

And you know in the end it will leave again  
But you'll stay for a while  
And you'll fake a smile for me

Falling out fly, falling out sky, deep into you  
Burn down right on cue  
Lighting this fire, begging for rain  
Cutting in time

Faces showing though  
Walking this line  
Leaving this time  
Open your mind

Let it in
