A common threat sits in our house
They keep on warning me
But I'm not always listening
And yesterday I heard the news of fire at my doorstep
But this morning they're just disputing semantics,
disputing semantics

Blatantly apparent
Necessary illusions, broadcasting?
Releasing, persuading, compliance, compliance
Releasing, persuading, compliance, compliance
The common threat sits in our house
But I feel so far, so far removed, removed, removed
The common threat sits in our house
But I feel so far, so far removed
Keep the production rolling

Fake it, amuse me
Necessary abusing, Broadcasting?
Releasing, persuading, compliance, compliance
Releasing, persuading, compliance, compliance

The common threat sits in our house
But I feel so far, so far removed, removed, removed
The common threat sits in our house
But I feel so far, so far removed

Keep the production rolling (3x)
