"Teuton Tandrums"

The long due union of east and west
Freedom and peace brought on people's request
But the halo is soiled and the cabbage's gone sour
Teuton tantrums and a world to devour

What they call the union of prosperity and peace
Is the conductor of economy's bringing europe to it's
knees

And it starts to go faster
Vicious circle, downward spiral
The rich get richer and the poor begin to starve
Pauperized masses told to paint the world brown
It's the merry-go-round to unravel the teutonic mind

Sleeping beauty waking up again
Coming soon to a theatre near you
Unhatched arsons, plague of locusts
All these years of peace to undo

What they call the union of prosperity and peace
Is the conductor of economy's bringing europe to it's
knees

Down and down we go
