### **"Off Dat Oil"**

Visit "[Off Dat Oil](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Pop it off that oil, kiss of that oil  
Pop it off that oil  
And we can sip whatever, girl, it's nothing  
Off that oil  
We getting it off that oil,  
She busting off that oil  
We gonna be here burning it up  
You gonna say you've fallen in love  
We turn up  
We gonna be here burning it up

We turning and it ain't no turning down  
She say I'm moving away because I honestly didn't  
pound  
At me straight it, ain't no chasing, tell her come and  
get me now  
Or don't, take my angel light and feel it, though, right  
now  
She seeing you but she chose me 'cause I ball hard  
like Kobe  
Say she know the real me, don't act like you know me  
Off the order and listen, he best made her a stripper  
Sloppy talking, that fake as shit, why that boy don't  
kiss her

Popping with my squad, cooling with my crew  
Took my clothes, then someone not, two for me and  
two for you  
And this all for you  
Is she drunk, alcohol abuse  
Keep the party rolling, I don't care what, I don't care  
who

Pop it off that oil  
Kissing off that oil  
Fucking off that oil  
And we can sip whatever, girl, it's nothing  
Off that oil  
We getting it off that oil  
She busting off that oil  
We gonna be here burning it up

You're gonna say you've fallen in love  
When I'll turn up  
We gonna be here burning it up

We've been drinking all night long  
Turning up, turning up  
Our friends all look good  
It's going down, going down  
Smoking weed 'bout a pound  
Boy, you're shit, don't make a sound  
Drinks up, it's party time, call the shots I ball around  
I tell no lie, tell no lie, god damn you fly  
Last call for alcohol  
We drunk as hell, falling down  
My partner saying get up  
He has here, no truck, throw these four chicks, let's  
fuck  
Boy, you broke as hell, shut up

Popping with my squad, cooling with my crew  
Took my clothes, then someone not, two for me and  
two for you  
And this all for you  
Is she drunk, alcohol abuse  
Keep the party rolling, I don't care what, I don't care  
who

Pop it off that oil  
Kissing off that oil  
Fucking off that oil  
And we can sip whatever, girl, it's nothing  
Off that oil  
We getting it off that oil  
She busting off that oil  
We gonna be here burning it up  
You're gonna say you've fallen in love  
When I'll turn up  
We gonna be here burning it up

Make shit bouncing, make her dance  
It's all to make a buck  
See, she shaking ass and making cash  
Got me spending all of my bucks  
She is crazy in the strip club  
'Cause the strip club turned up  
Finna touch down in our end zone  
'Cause this chick's sloppy drunk  
And she fucking off that oil, sucking off that oil  
She down a dude, a whole squad is 'off that oil  
See you summed up that oil that getting girls in their  
zone

But once I get them back in my home we gonna bong,  
bong, bong, bong

Pop it off that oil  
Kissing off that oil  
Fucking off that oil  
And we can sip whatever, girl, it's nothing  
Off that oil  
We getting it off that oil  
She busting off that oil  
We gonna be here burning it up  
You're gonna say you've fallen in love  
When I'll turn up  
We gonna be here burning it up
