### "As Shallow Becomes Deep"

Looking down over the edge  
Reflecting of mirroring waters  
I stare back into what seems to be me  
But I know that there's more

The simplicity of layered waves  
Makes the easy seem impossible

All that I want is more  
Please give me a storm  
So I can be humbled  
And seek who You are

I gaze through the clear surface  
As shallow becomes deep  
The glistening becomes murky  
To these eyes are evident

The simplicity of layered waves  
Makes the easy seem impossible

All that I want is more  
Please give me a storm  
So I can be humbled  
And seek who You are

The simplicity of layered waves  
Makes the easy seem impossible

The rhythm tries to consume me  
And find me when the storms come  
There is glory to be seen  
Through the beauty of the sea
