"Storm Clouds Break"

Visit "[Storm Clouds Break](#)" on MotoLyrics.com

The clouds are gathering
It's getting dark out
So hard to see you
What's making this mess

Wondering, aimlessly for
So I'm trying to find a way
Seeing glimpses of bigger things
Illusions take over me

What to make of all of this
Could it be the real thing
The thing not to long for
Or is it just a misconception

Wondering, aimlessly for
So I'm trying to find a way
Seeing glimpses of bigger things
Illusions take over me

Now that I can see you
Clearly through the storm
I see you, I see you
Beauty fills my eyes
