Well, I don't really know you but I know your name
I've got so many questions, so many things to say
Well, I believe that there must be
Some kind of evidence to make this case

To fill a hole to make it stick
Is there someway I can make my place?
You're the one to blame now, I'm taking aim
I never gonna let you get away

Stop driving me away, don't turn away
Now I've got you framed, don't turn away
There's only one choice to make
Don't ever try and escape, I'm gonna make you love me
I'm gonna take you down where you'll never be found

Well, I've got you in my sight, in my line of fire
Don't bother putting up a fight, don't even try it
You'll never get away
I've got you right where I can see
(You can't turn away)

You'll never get away, there's no escaping from me
You're the one to blame now, I'm taking aim
I'm never gonna let you get away

Stop driving me away, don't turn away
Now I've got you framed, don't turn away
There's only one choice to make
Don't ever try and escape, I'm gonna make you love me
I'm gonna take you down where you'll never be found

And you know it's not right
But you turn a blind eye
And you won't even try
Well, I can see right through your lies

I've got you in my sight, my line of fire
Don't bother putting up a fight, don't even try it

Stop driving me away, don't turn away
Now I've got you framed, don't turn away

There's only one choice to make
Don't ever try and escape

I'm gonna make you love me
I'm gonna take you down
Where you'll never stop driving me away
Don't turn away

Now I've got you framed, don't turn away
There's only one choice to make
Don't ever try and escape
I'm gonna make you love me
I'm gonna take you down where you'll never be
I'm gonna take you down where you'll never be found

Don't really know you but I know your name
