

The Living End "Gasoline"

Visit "[Gasoline](#)" on MotoLyrics.com

If you see me coming your way
Look out there's gonna be hell to pay
Certifiably dangerous and insane
I'm only happy when I'm having a bad day

I'm gonna tear this whole place to the ground
I'm burning all of the bridges in this town
They don't get any more messed up than me
With a belly full of fire
And a head full of gasoline

I'm not gonna cover my tracks
Not gonna sneak around like a rat
Misery by any other name

Proudly aware of the knife stuck in my back

They don't get any more messed up than me
With a belly full of fire
And a head full of gasoline
With a belly full of fire
And a head full of gasoline

I wanna tear this whole place to the ground
I'm burning all of the bridges in this town
They don't get any more messed up than me
With a belly full of fire
And a head full of gasoline
With a belly full of fire
And a head full of gasoline
