Chorus:

Yes sir, we're moving at the speed of life,
Illuminate the path that we're moving on,
Cumulate, now lets jet our mouths, where we make the
people bounce where the music gets around,
That's me, ridin' in the back of a taxi,
Gotta go home where I can't sleep,
Kill the telephone and be alone with too much pants but
it had to be,
Psychos, car in the middle of a typo,
Act like you didn't know life goes,
The world fair, ain't no fair when you're working at the
side show,
Well, you find a little piece of, hell,
I hope there's a mirror in your, cell,
To break everyday you wake up to you and take a look
at yourself,
Now, calm down,
Just another tear from the sad clown,
Take another year put it on the ground,
Spread it all around little gas and a mansion and a talk
in the past like
Make the people to move the moment you can,
Move through the movement the moment use it,
Listen with your mind, but just don't lose it,
Find the time for fusin',
To the life, you're choosing,
(Chorus x1)
You make songs; they move it to your dead bone,
On the right, I fight through the money like,
Out of sight of this child of the wild moon,
Gettin' tumors, wild tunes, laughing at your cartoons.
On a bar stool tryin to stay same and maintain,
This thorough blood, drinking wolf's vein,
Fuck what you say,
You're trying to make a fake connection like a taupe.
My thoughts 'come mildly affected,
By you and the light you projected,
No choice but to clash with a battle,
You had me here to cast a shadow,
One seed would grow your belief,

But if we agreed,
No one would bleed,
Can't lose the need to struggle,
Just another piece of the puzzle,
FUCK YOU
Must do, what I think is best for who?
Throw your hands in the tryin to catch the truth
Set the preference, its all burn,
'Cause it's your world but your world don't turn.
Make it hot, tryin to make it out,
Sittin' in the same spot, same vacant house,
Get get get proud, get loud,
and you still don't know what ima talkin about now.
(Chorus x2)
You leave, you try,
You laugh, you cry,
You dig, you lie,
You live, you die,
You will, you won't,
You feel, you don't,
You heal, and you crack,
and I promise still I got your back.
You leave, you try,
You laugh, you cry,
You dig, and you lie,
You live, and you die,
You will, and you won't,
You feel, and you don't,
You heal, and you crack,
and I promise still I got your back.
You leave, you try,
You laugh, and you cry,
You dig, and you lie,
You live, and you die,
You will, and you won't,
You feel, and you don't,
You heal, and you crack,
and I promise still I got your back. (Uh-hu)
You leave, and you try,
And you laugh, and you cry,
And you dig, and you lie,
And you live, and you die,
You will, and you won't,
You feel, and you don't,
You heal, and you crack,
and I promise still I got your back like that.
