Dance with me, darlin', till dawn
I wanna sway in your arms
'Til the stars fade away
Fade away

Moving together as one
'Til the first gentle rays of the sun
Light up the day
Light the day

And while the music still plays
Please, let me hear you keep saying

Over and over I'm falling
Falling in love with you
Say there's no way I could lose you
Hold me tight, I'm falling in love tonight

Touch me and tell me it's true
That I'm not asleep and that you
Are not just a dream
Just a dream

Here, with your heart pressed to mine
We flow like the river that winds
It's way to the sea
To the sea

And while the music still plays
Please, let me hear you keep saying

Over and over I'm falling
Falling in love with you
Say there's no way I could lose you
Hold me tight, I'm falling in love tonight

Say there's no way I could lose you
Hold me tight, I'm falling in love tonight
Hold me tight, I'm falling in love tonight
