Can you tell me what I should do?
To be the most,
Important thing in your life,
What should I do,
How should I be,
To be near you?
What's wrong,
Why can't you tell me,
How to get to your heart

You're my sun when the rain is falling,
You're the moon when the night comes,
You're the air that I am breathing,
You're the one that makes me believe in destiny

Make up your mind,
Come to your decision,
Do you want me or not?
'Cause if you don't,
I try to go on with my life,
But no one compares to you,
You're beautiful,
I am the opposite,
No doubt,
true love comes from the heart,
You like those other guys,
Who's running after you,
The question is,
Do they love you forever?
Can you tell me what I should do,
Everything I do,
I'd do anything for you

You're my sun when the rain is falling,
You're the moon when the night comes,
You're the air that I am breathing,
You're the one that makes me believe in destiny

We need to cross,
The ocean of misunderstanding,
And talk deep into our hearts,

We need to sort out,
All our complications,
And find out who we really are

You're my sun when the rain is falling,
You're the moon when the night comes,
You're the air that I am breathing,
You're the one that makes me believe in destiny

You're my sun when the rain is falling,
You're the moon when the night comes,
You're the air that I am breathing,
You're the one that makes me, makes me believe.
