Don't stop
Now we could make it rock
And I'm gonna bring
The best of me
Now what is left of me
Look over here
Cause here I am
And I'm gonna give it all I have
Don't stop
Turn it up a notch

Ice cold won't make you fine as gold
We will bring the heat
If you start moving your feet
Ice, ice cold won't make you fine as gold
We will bring the heat
If you start moving your feet

We're gonna fly over all the oceans
We're gonna shout to the outer space
We're gonna see all the new beginnings
We're gonna reach the bitter end
Together we can make the magic
Together we can win the race
Together we can beat the tragic
Let it all begin

Look at the stars
But they're not as beautiful as you
Look tonight
Now give us a try

Ice, ice cold
Won't make you fine as gold
We will bring the heat
If you start moving your feet

We're gonna fly over all the oceans
We're gonna shout to the outer space
We're gonna see all the new beginnings
We're gonna reach the bitter end

Together we can make the magic
Together we can win the race
Together we can beat the tragic
Let it all begin

We're gonna fly over all the oceans
We're gonna shout to the outer space
We're gonna see all the new beginnings
We're gonna reach the bitter end
Together we can make the magic
Together we can win the race
Together we can beat the tragic
Let it all begin

We're gonna fly over all the oceans
We're gonna shout to the outer space
We're gonna see all the new beginnings
We're gonna reach the bitter end
Together we can make the magic
Together we can win the race
Together we can beat the tragic
Let it all begin
