Worst enemy was always me
Forgot the day, forgot to breath
I let the monsters get to me
And now I'm running

I lie awake, I can not sleep
Someone is trying to make me weak
They hypnotize, and then they leave
And then I don't know nothing

But here we are, we're not afraid
Still they're taking everything, it's all or nothing

They tried to take it all, they tried to get in my head
But we won't go, we won't go until it's over
Monsters in my head, they're like the living-dead
Now we won't go, we won't go until it's over
Over

Voices in my head, now help me!

We stand still
Is this nightmare over?
We were born to scream
But deep down, undercover!

Monster's in school, and on TV
They take your mind, they lie and cheat
Make you feel just what they want
Your weakness is what turns them on

But here we are, we're not afraid!
Still they're taking everything, it's all or nothing

They tried to take it all, they tried to get in my head
But we won't go, we won't go until it's over
Monsters in my head, they're like the living-dead
Now we won't go, we won't go until it's over

They influence, with a bunch of nonsense, they put it on
their blog

And then you'll see, you give up and leave
Close your eyes, before they take it
Your confidence is lying on the street, like they wanted

We're not gonna give up, we won't ever stop
We're not gonna give up, no
We're not gonna give up, we won't ever stop
We're not gonna give up, no

Voices in my head! Now help me!

They tried to take it all, they tried to get in my head
But we won't go, we won't go until it's over
Monsters in my head, they're like the living-dead
Now we won't go, we won't go until it's over
Until it's over
