how are you feeling?
what are your reasons?
do you feel love or a lack-there-of?
love is a bond without reason
a cry for connection
a light in your eyes
love is a reason for living
a reason for trying, a reason for life
forgive the feeling
get out of your reasons
life is love or the lack-there-of
love is a bond without reason
a cry for connection
a light in your eyes
love is a reason for living
a reason or trying, a reason to cry
love is a bond without reason
a cry for connection
a light in your eyes
love is a reason for living
a reason for dying

love is everything, love is everything...
how are you feeling? love is everything..
what are your reasons? love is everything..
how are you feeling? love is everything...

love is everything...
