I picture you sighing soft
only in my dreams
whisper kisses
only in my dreams

CHORUS

and they're always here to remind me...
pictures, stars, and dreams
they're always here to remind me
they're always here
calling me, calling me
when i look up

you're the brightest star
in a pocketful of skies
my colored picture in a world of black and white
my only dream come true
in a restless winter night
my only dream come true

when i look back on a picture of the past
i close my eyes and make believe i was still there
cause all i have left are pictures and stars and dreams
to hold on to
i'll never wish on another star again x2

Chorus
