you suck the life out of a crowd  
without a sound  
i see your kind around  
and of course you're one in the same  
you suck the life out of a room  
with merely a glance  
you are the slave  
a clone of a petrified fool on a throne

(so here i am)  
you're in a trance, you're in a trance  
(you betrayed me)  
you're in a trance, you're in a trance  
(you're not the same)  
you're in a trance, you're in a trance  
(you still need me)  
you're in a trance, you're in a trance

be careful we're watching  
and you can feel us stalking  
we're patient and thorough  
you'll never see us let go

you suck the life out of the new  
with all that you do  
they are naive and are driven to find their own identity  
you strip the joy out of the souls  
with all of your rules  
you are the fashion of now  
and the sickening flavor of cool

(so here i am)  
you're in a trance, you're in a trance  
(you betrayed me)  
you're in a trance, you're in a trance  
(you're not the same)  
you're in a trance, you're in a trance  
(you still need me)  
you're in a trance, you're in a trance

be careful we're watching

and you can feel us talking  
we're patient and thorough  
you'll never see us let go

we'll tear your heart right out of your chest  
you're already dead  
you can surrender or savour the scent of your own  
miseries  
we'll steal the fire out of your eyes and turn it on you  
we are the thorn in your side and the bullet to blow you  
apart

blow you apart!!!!
