There is a land so far away from us  
A land of magic and mystery  
There is a place, so different from everywhere  
No peace of understanding

And I, I have fallen to the ground, from the sky above  
And I, I have been chosen to fight the evil one

Searching for glory, and kingdoms of gold  
He travels through forests and valleys alone  
Sooner or later he will reach his goal  
There's still time to stop him, and bury his soul

Guardians of Kali, have power and wisdom to fight his  
mighty force  
Our gods is at our side  
Guardians of Kali, they are hungry for battle and the  
enemy's blood  
Sunlight is rising, battle is near

We will fly like dragons in the sky  
We're travelling faster than lightning  
With wings that shine eternally  
We will fly like dragons in the sky  
The guardians gave me the power  
To fight in the sky  
The guardians of Kali

There was a time so many years ago  
A time of peace and happiness

When no one believed in the prophecy, living for the  
day  
And now, I have fallen to the ground, from the sky  
above  
And I, I have been chosen the fight the evil one

Searching for glory, and kingdoms of gold  
He travels through forests and valleys alone  
Sooner or later he will reach his goal  
There's still time to stop him, and bury his soul

Guardians of Kali, have power and wisdom to fight his  
mighty force  
Our gods is at our side  
Guardians of Kali, they are hungry for battle and the  
enemy's blood  
Sunlight is rising, battle is near

We will fly like dragons in the sky  
We're travelling faster than lightning  
With wings that shine eternally  
We will fly like dragons in the sky  
The guardians gave mr the power  
To fight in the sky  
The guardians of Kali

[Solo Fredrik]

We will fly like dragons in the sky  
We're travelling faster than lightning  
With wings that shine eternally  
We will fly like dragons in the sky  
The guardians gave mr the power  
To fight in the sky  
The guardians of Kali
