"We Were Kids"

Visit "[We Were Kids](#)" on MotoLyrics.com

we were kids with a dream
and you had everything
the most money and the car
but they didn't get you very far

and now you look so sad
living with your mom and dad
and your dramas still the same
all you wanted was a little change

[Chorus]
and when we first started out
you laughed and you said that
we'd never turn out
to be anything in this world
look at me now
i've stolen your girl

you were liked and i was not
but i have just one last thought
wheres your friends
your bros your homies?
man, you look pretty lonely

[Chorus]

[Instrumental]

[Chorus]

Look at me now!
Ive stolen your girl
