Don't disturb the lady bug
Sleepin' by the spider's we-eb
And if you see a butterfly
Don't try to catch it i-in your net
It's taken such a long long time
To make this very special place
Open up your soul and mind
To all it has to say-ay

Be-ee still, take it in a whi-ile
Fee-eel the sunshine
Warm upon your fa-ace
You-ou'll feel when it makes you smi-ile
Like you're we-elcome to the human race

Everybody sees a part of what this life can rea-eally be
No one sees like you can see
When you let your mind flow free-ee
The wind is blowin' through the trees
A song that everyone can learn
And God is playin' hide and seek everywhere you tur-
urn

Be-ee still, take it in a whi-ile
Fee-eel the sunshine
Warm upon your fa-ace
You-ou'll feel when it makes you smile
Like you're we-elcome to the human ra-ace

Don't disturb the lady bug
Sleepin' by the spider's web
And if you see a butterfly
Don't try to catch it in your ne-et
It's taken such a long lo-ong time
To make this very special place

A very special place
