Well it's 10:55 we're spitting out songs by the dozen
And the way that you move girl it's better than a rock 'n'
roll song
Do you remember last night when I swore on my grave
that I love you
Well I just can't remember the last time I buried myself

Think it over baby
Think it over darling
Oh think it over baby
Think it over baby before you have a change of heart

The room's getting smokey. I feel my head and it's
buzzing
And the way that you move girl it's better than nothing
at all
Well I remember the last time I saw you I was half crazy
But I just can't remember the last time that you were
yourself

Think it over baby
Think it over darling
Oh think it over baby
Think it over baby before you have a change of heart

The room's getting smokey. I feel my head and it's
buzzing
And the way that you move girl it's better than nothing
at all
Well I remember the last time I saw you I was half crazy
And I just can't remember the last time that you were
yourself

Think it over baby
Think it over darling
Oh think it over baby
Think it over girl before you have a change of heart
