Hey, man, I don't feel like goin' to school no more
Me neither they can't make you go
No you daddyo, yeah

I ain't goin' to school it starts too early for me
Well listen man I ain't goin' to school no more
It starts much, much too early for me
I don't care about readin', writin', 'rithmetic or history

I'm gonna walk to the corner and meet my little Marie
I'm gonna walk to the corner and meet my little Marie
Well she's the only girl in this whole world who
understands me

Well she's sexy and seventeen
My little rock-roll queen acts a little bit obscene
Gotta let off a little steam
Dig that sound shake it around you're mine, mine, mine

Johnny and Eddie and me and Jimmy and Jack
Are gonna do a little number on the teacher when she
turns her back
We're gonna cut out of class, meet the girls by the
railroad track
Well every Friday night there's a band that you gotta
hear
Just a dollar ticket in and twenty-five cents a beer
They play rock and roll music like it hasn't been rocked
for years

Well she's sexy and seventeen
My little rock-roll queen acts a little bit obscene
Gotta let off a little steam
Dig that sound shake it around you're mine, mine, mine

Well when I hear that rockin' beat
I can't sit still up , out of my seat
Come on babe let's jump 'round your feet
Can't learn nothin' in school they don't teach you on the
street

Wo-oh, wo-oh, baby, I like your style
Wo-oh, oh, oh, oh baby, I like your style
You don't care what the other kids say, you go real wild

Well you're sexy and seventeen
My little rock-roll queen acts a little bit obscene
Gotta let off a little steam
Dig that sound and shake it around you're mine, mine,
mine
Dig that sound and shake it around you're mine, mine,
mine
Dig that sound and shake it around you're mine, mine,
mine
