[verse1]

Everybody got a couple of dreams in their life/
make money find a job or even do somethin' nice/
perhaps meet a good wife get some kids start a hole
new life/
or buy a car try it out don't think about the price/
if you got money and dreams, no other places to be
and like the things that you see, don't try to hide the
key/
open the door come on time to explore/
you gotta live your dream I know you want some more/
that's the problem with the rich people always want
more
& when they got the things they needed their back in
the store/
that's right never satisfied always to extreme/
but guess what.. now I know that even you got another
dream/
if you're not rich just poor you need some more right/
I'm just checkin' makin' sure nobody wanna be ignored/
we're all humans with big dreams.. hey atleast we try/
ain't nobody wanna be left all alone outside/

[chorus]

ain't nobody stoppin' me now...

gotta follow my dreams all the way out...

ain't nobody stoppin' me now...

I didn't give up, just tryed to believe
believed in myself, yo I'm stickin' to my dream

[versell]

Nothin' in this world is impossible you have to believe/
in all the things that you do and what you wanna be/
if we ain't got any dreams it's really easy to quit/
so why give up when you can keep holdin' on/
be strong don't let go nothin' will go wrong/
if you can trust yourself and also know where you

belong/
then you're on the right track gotta do it like that/
don't go back perhaps someday you can "lean back"/
& be proud of what you did it might have taken a little
while/
but you stood up just like a boxer standing in the last
round/
be strong is the word everybody has heard/
I'm writing down the words and tellin' you what I
preffer/
nobody can't tell me what to I make decisions on my
own/
all alone standin' in the middle of the zone/
so when the time is right it might be day or night/
I'm gonna tell these mf whos really rockin' the mic/

[chorus]
ain't nobody stoppin' me now...

gotta follow my dreams all the way out...

ain't nobody stoppin' me now...

I didn't give up, just tryed to believe
believed in myself, yo I'm stickin' to my dream

[verselll]
long time ago I didn't believe, I had a team, not a
dream/
but now I know what I can be/
mr robert e that's me gotta follow my dream/
put my mind & soul & heart into it Y'naw'mean,/br/>everything can be done my journey already begun/
many hills on the way but I ain't leavin' it undone/
like a runner on the track we better watch over our
back/
about to take a big step and just follow my dreams like
that/

[chorus]
ain't nobody stoppin' me now...

gotta follow my dreams all the way out...

ain't nobody stoppin' me now...

I didn't give up, just tryed to believe
believed in myself, yo I'm stickin' to my dream
