Baby don't you tell me no lie
Baby here's the reason why
I've been everywhere, and seen everything
So baby don't you tell me no lie

Baby don't you talk no trash
Unless you've got some cash
Cause it's always been told, I love my gold
Baby don't you tell me no lie

I was out the other night
For everything was all right
But what did I do, but run smack into you
Baby don't you tell me no lie

Now I'm ready to fight
Cause I thought that you would do right
But you have broken your vow and look at you now
Baby don't you tell me no lie

Baby if you gonna get high
And think you're gonna lie
You'd better not drink, you better stop and think
Baby don't you tell me no lie

Baby this is the end
But you can still be my friend
Though you went ahead and laughed when I said
Baby don't you tell me no lie

Baby? Don't you hear me? Baby don't you tell me no lie!
