We met at a party late one summer night
My friend introduced me, and it felt right
So I asked for your number
In exchange I gave you mine
We talked forever, lost track of time
I've got to let you know that I am...

Falling faster, I'm fallin' even faster, faster
I'm fallin' even faster, faster
I'm fallin' for you

We watched the sunrise in my neighbor's yard
You decided to go, but goodbyes are always hard
So we had breakfast at the diner down the street
We asked the waitress for some toast, juice, and jelly
I've got to let you know that I am...

Falling faster, I'm fallin' even faster, faster
I'm fallin' even faster, faster
I'm fallin' for you yeah

Who needs life when you've got love?
And I've, I've got you

And I'm falling faster, I'm fallin' even faster, faster
I'm fallin' even faster, faster
I'm fallin' for you

And I'm falling faster, I'm fallin' even faster, faster
I'm fallin' even faster, faster
I'm fallin' for you yeah

Oh I'm fallin'
Oh I'm fallin'
Oh I'm fallin'
Oh I'm fallin'
I'm falling faster
Falling for you
