I heard you was out, high as you could be  
Kissin' another fella, and you know it wasn't me  
That ain't right, no no no, that ain't right  
What goes on in the dark, will soon come to light

They say you whispered low, an' spendin' all of my  
dough  
You told that fella things, you never told me before  
That ain't right, no no no, that ain't right  
What goes on in the dark, will soon come to light

One of these days, just you wait and see  
Baby you'll realize, the way you're treating me  
That ain't right, no no no, that ain't right  
What goes on in the dark, will soon come to light
