You told me baby, once upon a time
If I'd be yours, little girl you'd be mine
But that's all right, I know you lovin' some other man
But that's all right
Well now, then I wonder, who's lovin' you tonight?

You told me baby, your love for me was strong
But I woke up this mo'nin', your big worries was gone
But that's all right
I know you're lovin' some other man, but that's all right
Well now, then I wonder, who's lovin' you tonight?

When I was lovin' you, just couldn't understand
Now you've gone and left me, for some other man
That' all right, I know you lovin' some other man
But that's all right
Well now, then I wonder, who's loving you tonight?
