If I can go back in time  
Go back to the best years of my life  
Recount the times we laughed  
Recount the times that I left behind

Apart of me that was pure  
Apart of me that I use to adore  
Hit the lights colour glides  
The atmosphere changes the sight and the sound  
I know you looked before  
And I would lie if I said I had no fear

I see seconds like gold  
Even more I should say  
It's got a painful desert  
And this life we've been prone to

Hit the lights colours glide  
The atmosphere changes the sight and the sound  
I know you looked before  
And I would lie if I said I had no fear

Hit the lights colours glide  
The atmosphere changes the sight and the sound  
I know you looked before  
And I would lie if I said I had no fear  
If I had no fear
