Ever, ever, ever, ever  
Forever and ever how you hear me say  
That I will never, no never, no never  
Forget this one perfect day  
Forever and ever, and ever  
We're gone to stay  
How can it be that you got me  
To feel this way

I know the score now  
I don't play that crazy game  
It's such a bore now  
Cause it always plays the same  
And then I hear it spoken  
Sounds like I love you  
And I feel, that it's real, that it's true

Refrain:  
Forever and ever you hear me say  
That I will never, no never, no never  
Forget this one perfect day  
Forever and ever, and ever  
We're gone to stay  
How can it be that you got me  
So happy feeling this way

I know the score now  
I don't play that crazy game  
It's such a bore now  
Cause it always plays the sme  
And then I hear it spoken  
Sounds like I love you  
So I swear  
I'll be there close to you

Refrain
