Whoa baby, baby  
u promised me forever and ever  
things were great but they didn't last  
you ripped my heart right outta me  
when i found out you didn't love me  
you loved one of friends even more  
you begged me back  
and i gave you another shot  
but that was all my fault  
I'M SITTIN HERE ALONE!!!!!!  
y did you go and break my heart again  
you meant so much to me and i let you in  
to my soul to my heart i loved you so much  
how can you pass and not even look  
all our good times just memories  
you found someone new  
and you are really happy now  
baby baby baby i love you still!!!!!!  
ooooo what can i do to get you back to me  
all the nice things i've done for you  
never talked bad  
stood my your side  
.....almost doesn't count
