It started out with just a glance
Some conversation, slow dance
It was nothing, it didn't mean too much

But all of a sudden he's on your mind
You think about him all the time
Welcome girl, to the crazy world of love

Your heart's doing somersaults
Head spinning like a top with thoughts of only him
You pace up and down the hall waiting for his phone
call
Can't wait to see your baby again

Go ahead, try to deny
But you're dreamin' from cloud nine
Welcome girl, to the crazy world of love

Don't get too close, put up your guard
You might wind up with a broken heart
That's something you've had your share of

Strange emotions burn within
You can't believe you're falling
Welcome girl, to the crazy world of love

Your heart's doing somersaults
Head spinning like a top with thoughts of only him
You pace up and down the hall waiting for his phone
call
Can't wait to see your baby again

Go ahead, try to deny
But you're dreamin' from cloud nine
Welcome girl, to the crazy world of love
Oh, welcome girl, to the crazy world of love
