[Intro]

Yeah, yeah

Just chilling on top of the hill with my man Mathematiks

Showing brothers how we get down

From the nine six beyond

This is the last day

But we got to wake up, straight up

[Mathematik]

I helped raise the gods up and change the odds up

And take over songs that manifest for ya

Become a revolutionary like Sister Rosa

For biters, writers, non-fighters and soldiers

I send my knowledge back to my people black

In fact, you see others will listen

When it's the Asiatic mission

Niggas be on the court hitching

A ball of poison up inside the kitchen

When I collect my thought I'm mentally enriching

Yo, close to the end times, I'm about to correct mine

An international plan to check rhymes

See the nine six, full of frauds and mad tricks

But we just about had it

So enter Mathematik, to clear up all the static

Yo, the message is this my niggas on the street need  
to wake up

Straight up, realize the nineties are bait up

[Chorus]

Cause every positive move you think of making the  
devils anticipating

You might debate, you might just,

Learn to earn cause I'm righteous (Learn to earn cause  
I'm righteous)

[Mathematik]

My mind state elevates everyday I concentrate on  
societies state

You see the time to motivate and caplets

But the lockdown situation frustrates

And it does state the facts that black on black

Is not the way to react. so the gods attack  
And a Down Ta Erf session bring the real shit back  
Yo, the metal 1200's always got my back  
When my rhyme style prevails  
You'll have to wonder what's real  
Not the past or future, a present ideal  
So you might just learn to earn cause I'm righteous

[Chorus]

Yo, yo, yo, weither you praise Jah, Allah or self just  
know  
Take no shorts and lay low  
Cause every positive move you think of making the  
devils anticipating  
You might debate, you might just, learn to earn cause  
I'm righteous (Learn to earn cause I'm righteous)

[Mathematik]

Evidence relates every rhyme I state  
And as the puzzle collects links its notes to take  
And awake niggas act don't think  
Full of scriptures of the devil's inc. and as a host I hint  
Variable parables to my people of tint  
So they can unvail the words that's real in hell  
Born to re-write the arts then tip the scale  
So Mathematikal static can rain on nigga's like hell  
Build up the stockpile, like knowledge to a child  
Come through first like empire from New York  
Alley, my style a, is (?raley?)  
And with this record on enalasis, I'll let you know my  
message is this

[Chorus]

yo, weither you praise Jah, Allah or self just know  
Take no shorts and lay low  
Cause every positive move you think of making the  
devils anticipating  
You might debate, you might just, learn to earn cause  
I'm righteous  
(Learn to earn cause I'm righteous)

[Outro]

The message is this, the niggas on the street need to  
wake up  
Straight up
