Love is lifting me higher
Love is lifting me higher

Love love love
Is lifting me higher

Take my heart
It's my desire
Love love love
Is lifting me higher
Take my heart
It's my desire
Love love love
Is lifting me higher
Take my heart
And feel the fire

Love is lifting me higher
It makes me feel good
Just give me a try to show you
That my love is right
Together we can spend the night
Find the truth me and you
Keep on trying just don't stop
Feel the power of my soul
To get you let it flow
Come on feel the power
Of my heart it goes like a ... shower
Take me into the sky
Take my hand and let's fly high
Show me love ...
'Cause I wanna love you
.....
.....

Love is lifting me higher
My desire in fire
