How fucking romantic
All the stars are out
Twinkling, twinkling, twinkling
And fluttering about

What a tacky sunset
What a vulgar moon
Play another charming
Rogers and Hart tune

How fucking romantic
Must be really waltz?
Drag another cliché
Howling from the vaults

Love you obviously
Like you really care
Even though you treat me
Like a dancing bear

Toss your bear a goldfish
As it cycles by
Don't forget to feed your
Bear or it'll die
