I'm taking, taking all of my time  
I'm dodging words but she's saying the right lines  
She made me, made me oh so crazy  
But this time I feel like I'm doing something right

It makes me sick to think about everything you put me  
through  
And how you left without saying goodbye  
And if it's really over now then you can walk away  
And it would be the last time

This is the end of you and me  
Everything I used to be  
Back then it meant something  
But you're living a lie  
You just can't hide from me

You had me hangin' on your last word  
And now I'm feeling a little less than trusting  
You had me wishin' we were somethin'  
But left me here with a whole lot of nothing now

This is the end of you and me  
Everything I used to be  
Back then it meant something  
?Cause you're living a lie  
You just can't hide from me

"Love is a luxury", she said  
"Rather be in love than dead"  
But not with her, oh God not with her  
She's the type of girl who makes love hers

She's taking, taking, all of my time  
I'm dodging words but she's saying the right lines  
You make me, make me oh so crazy  
But this time I feel like I got it right

This is the end of you and me  
Everything I use to be  
Back then it meant something  
'Cause you're living a lie

You just can't hide from me

Oh, this is the end of you and me  
Everything I used to be  
Back then it meant something  
?Cause you're living a lie  
You just can't hide from me
