I remember every night we spent on weekends with
good friends
We did nothing but it seems like we did so much back
then
Oh back then we were kicking, laughing, all relaxing
and taking things for granted
We did anything but just that little rush (oh yeah)

Just don't forget this
We won't regret this
We've got one chance to get it right

We're alive and we drive to the center of it
Where we know we're all fine
And this just can't be it
And in the end we all know
We only breathe for so long
So tonight's the night we all roll along

Oh back to it for a cigarette
And well, we can't forget all the faces that we have met
A-1, 23 means everything to me
Take you back to the parking lots, the sleep we fought,
and all the places we got caught
This place will always be a part of me
Yeah, you're all a part of me

Just don't forget this
We won't regret this
We've got one chance to get it right
We're alive and we drive to the center of it
Where we know we're all fine
And this just can't be it
And in the end we all know
We only breathe for so long
So tonight's the night we all roll along

I remember every day that I spent dreaming of leaving
this place behind
I would run away from thinking
Adding up all the days spent wasted
Chasing the girls we hated

Some things they, they never change

Take me back to the sleepless nights, the stupid fights
And oh, it never mattered who was wrong or who was
right
And now you're all a part of me

We're alive and we drive to the center of it
Where we know we're all fine
And this just can't be it
And in the end we all know we only breathe for so long
So tonight's the night
We all roll along
