We must abolish work, not just a cheap clich?,  
Just another trick to make the workers pay  
We must erase the timeline please,  
Baby please, or we will end up dying on our bare knees  
We must destroy culture free commodity,  
Their executives are all that you believe, yeah  
We must abolish work, not just a cheap clich?,  
Just another trick  
We must abolish work, not just a cheap clich?,  
Just another trick to make the workers pay  
We must erase the timeline please, pretty please,  
Or we will end up dying on our bare knees  
We must destroy culture free commodity,  
Their executives are all that you believe, yeah  
We must abolish work, not just a cheap clich?,  
Just another trick to turn us all into slaves

Come on now, where you been?  
I say open up, you say let me in  
Come on now, where you been?  
I say please, just say, just say when

Reject the timeline, I'm losing my mind,  
Reject the timeline, ooh we'll stay in line  
Reject the timeline, I'm losing my mind,  
Reject the timeline, ooh we'll stay in line  
Reject the timeline, I'm losing my mind,  
Reject the timeline, and ooh we'll stay in line  
Reject the timeline, I'm losing my mind,  
Reject the timeline, ooh  
Yeah, yeah, yeah, I'm losing my mind
