We're all tired of flying in second class baby, never  
ever navigating  
Always have to be the one that's waiting for a number  
in line  
We're all sick of, we're all sick of following that  
direction  
And still, with your pulling us around by the

Gonna make you realise why we should own our own  
airlines,  
Gonna make you wave goodbye

We're all tired of, tired of flying in second class, can  
you feel this my brothers?  
Havin' to wait for the process  
We're all tired of flying in second class baby, never  
ever navigating  
Always have to be the one that's waiting for a number  
in line

Gonna make you realise why we should own our own  
airlines,  
Gonna make you wave goodbye  
Gonna make you wave goodbye, now and forever  
Gonna make you wave goodbye, cause we'll fly away,  
fly away  
Gonna make you realise why we should own our own  
airlines,  
Gonna make you wave goodbye  
Gonna make you realise why we should fly our own  
airlines,  
Gonna make you wave  
It's ready, it's ready, it's ready, it's ready for you
