Do you know, know my name? So where do we, do we
begin?

Papercuts, yeah, papercuts, yeah, papercuts from
writing too much

Do you know, know my name? Let's make a list of our
complaints

Let's make a list, let's make a list, make a list and put it
to flames

Do you know how it feels to not owe anyone anything,
come on

Do you wanna know how it feels, yeah

Do you know, know my name? Let's make a list of our
complaints

Let's make a list, let's make a list, make a list and put it
to flames

I

I'm tired of playing, I'm tired, make it all go away and
that's what I say

I'm tired of playing, I'm tired, make it all go away and
that's what I say

Do you know, know my name? Let's make a list of
everything

Let's make a list

Do you know, know my name?
