Help me cause I can't understand is this the progress
that was planned?
Help me cause I ust can't see what is new with this
economy
Labor camps, death zones seems like we've seen it
before
Free trade restructuring plans like money could give a
damn

Hold tight- hold tight
I got a feeling that something's not right tonight
Hold tight- hold tight
I want to feel alive

Help me cause I can't understand feudal serfs with
outstretched hands
Help me cause I just can't figure out what this freedom
is all about
Free to slave free to pay Nike shops will save the day
More ball and chain will lead the way to this
globalization wave

Hold tight- hold tight
I got a feeling that something's not right tonight
Hold tight- hold tight
I want to feel alive

Help me cause I can't understand is this the progress
that was planned?
Help me cause I just can't see what is new with this
economy
Labor camps, death zones seems like we've seen it
before
Free trade restructuring plans like money could give a
damn
Yeah I just don't get it
