

International Noise Conspiracy, The "Smash It Up"

Visit "[Smash It Up](#)" on MotoLyrics.com

I want to smash it up for all the workers who spent
hours into nothing
I want to smash it up for all my sisters who got caught
up in this funky system
I want to smash it up just like a locust, like a satellite
shooting rockets
I want to smash it up in every way I can, right now I
think I want to be your man

Smash it up yeah, when I'm down

I want to smash it up for all the kids who got fucked up
just like their parents did
I want to smash it up, the gods and masters who made
us die so much faster
You know I wanna smash it up
You know we gotta smash it up
Come on pretty, smash it up
Everybody right now, come on everyone

Smash it up yeah, when I'm down

I want to smash it up for all the people and for our right
to be treated equal
I want to smash it up for all my friends, I hope you stick
around until the very end
You know I wanna smash it up
You know we gotta smash it up
Everybody wants to smash it up
Come on everyone, right now

Smash it up yeah, when I'm down

I want to smash it up
