"40 days and 40 nights since I last got in a fight  
What have we done? Money's on the lookout for  
number 1  
40 nights and 40 days that's how long I'm going to stay  
What have become of the children that this culture  
spawned?

Another word for lack of precision  
Another word that fits for me and you  
We are up for sale everything that we know is up for  
sale

40 days and 40 nights since I last saw some light  
What have we done sacrificed our kids and loved ones  
40 nights and 40 days is this the price we are going to  
pay?  
What have we become, marked up and price-tagged  
everyone

Another word for the lack of precision  
Another word that fits for em and you  
We are up for sale everything that we know is up for  
sale
