Play with me just like a lost kitten in a tree
Set it off and alternative that's never of it's knees,
Come along, join in on the fun yeah
Just like commodity are sold so cheap
Cut it up and watch me go to sleep

Yeah come on come on come on yeah, we're the young
pretenders army
Wow said you weren't free yeah
Dead set on target just pay the fee, consume lifestyles
just to be set free
And now what does this all mean to me?

Play with me just like a lost kitten in a tree
Set it off and alternative that's never of it's knees,
Come along, join in on the fun
Yeah come on come on come on yeah, we're the young
pretenders army
Wow said you weren't free yeah

Right about now, just a little more time, we're the young
pretenders army
I've got just a little piece of my mind, said said what
are you
We're the young pretenders army

We pretend that everything is gonna be alright,
We pretend the revolution is in sight
We pretend rebellion's close at hand,
We pretend we pretend we pretend yeah
We pretend we pretend yeah
