Cry your eyes out over me
Don't ya see, don't ya see
All the things they said are true
I've been mean to you

I don't want to know
I don't want to know
I don't want to know
I don't want to know
I don't want to know
About you

You gave me all the love you had
Made me glad, made me glad
Go find yourself another boy
I'll only make you cry

I don't want to know
I don't want to know
I don't want to know
I don't want to know
I don't want to know
About you
You gave me all the love you had
Made me glad, made me glad
Go find yourself another boy
I'll only make you cry

I don't want to know
I don't want to know
I don't want to know
I don't want to know
I don't want to know
About you

I don't want to know
I don't want to know
I don't want to know
I don't want to know
