She wants to be on stage, front page
I'll sign the dotted line
You know, I'm gonna shine
She just needs that big break, that great take
To start my new career
You'll see that I'm sincere and I won't blow it

Oh, Mister Director, please
Don't reject her till you've heard her read
For the lead in your new production
Mister Producer, please
Don't seduce her till you've heard her sing
And everything in your new production

She got to be hot stuff, real tough
I wanna be photographed
Asked for my autograph
I don't want to keep house for a spouse
I'd much rather be the girl
I need much more to be the pearl of the movies

I'd much rather be the girl
I need much more to be the pearl of the movies
I'd much rather be the girl
Need much more to be the pearl of the movies
