A Thursday night meeting to talk to your dad
He says that the organization makes his heart feel glad
I picked out a movie, we went with your dad
And he said that it's this kind of movie
That'll turn a good kid bad

He should know 'cause he's your dad
And he knows what's good and what's bad
Yes I guess you'll never be had
'Cause how many times have I heard him say

"Nothing's too good for my little girl
Give her the best, I say
It's always first class
For my little girl all the way"

One night in a night dream
I dreamt of your daddy, he was making up a list
Of all the things he thought I should have
One day in a daydream, I found you alone
But I didn't try to kiss you or even make you my own

'Cause you belong to dad
You're not on the list of things I should have, yeah
And I'm the kid who went bad
How many times have I heard him say

"Nothing's too good for my little girl
Give her the best, I say
It's always first class
For my little girl all the way"

"No nothin's too good for my little girl
Give her the best, I say
It's always first class
For my little girl all the way"

"Nothing's too good for my little girl"
