The implications of an accident  
You want to know  
You never want to make friends today  
He wants to run

I've get this feeling that we're left out  
The implications of an accident  
You want to know

I've got this feeling that we're left out  
You don't want to make friends today  
You want to run

I've got this feeling that we're left out

Be so hard  
We've got a lot of these things  
We just, we've got a lot of these things

Could be so hard  
We've got a lot of these things  
We just, we got a lot of these things

And life's so hard  
We've got a lot of these things  
We just, we got a lot of these things

It could be so hard  
We've got a lot of these things  
We just, we got a lot of these things  
We've got a lot of these things
