The Marble Index
"I Believe"

I don't need this but I'll stick around
Finding out why, 'til it comes to town
I know that all I hear is what you want
But this isn't the day, while I'll bring it along

I don't need a word, I just wanna hear
Something of yours that we could not share
I know all that I need and I'll get it right

I believe that I'll figure it out
I'll figure it out when I'm done
I believe that I'll figure it out
I'll figure it out when I'm done

It's time I realize that it's done
Away, goodbye, goodbye

Simple procedures of filling in holes
Is it all lies that you've never been told?
I know all that you need is out on a wire
But I can't conceive with all you've conspired

I know now it's all right, I heard it so long
You've been singing your lies while I'm singing my
song
Well, fill in the blanks and I'll get it right

I believe that I'll figure it out
I'll figure it out when I'm done
I believe that I'll figure it out
I'll figure it out when I'm done

This time I realize that it's done
This time I'll right the rights when I'm wrong
Away, goodbye, goodbye

I believe that I'll figure it out
And I'll figure it out when I'm done
I believe that I'll figure it out
And I'll figure it out

I believe that I'll figure it out

And I'll figure it out when I'm done
I believe that I'll figure it out
And I'll figure it out ?til I?m done
