Waited by the phone
Can you tell me please, Tell me what did I do wrong?
I do these things for you, Can you tell me please, tell
me what am I to do
I'll swim a river far, catch a falling star, I'll do it just for
you

If that isn't love
It's everything we're thinking of
Love can be all that we'll ever need
If that isn't love

I'd give you every thing
Maybe a diamond ring and tell you I love you so
Every day I cry every night I cry, to get to you, I'll get to
you
Even in my sleep the stars I catch I keep, I'll do it all just
for you

If that isn't love
It's everything I'm thinking of
Love can be all that we'll ever need
If that isn't love

If that isn't love
It's everything we're thinking of
Love can be all that we'll ever need
If that isn't love

From above, it's sure my love
From above
From above, it's sure my love
