I tried to warn you my son
Don't get caught up with the wrong guns
Where did you go?
Where did you go?
Where did you go?

You went off to work in the sun
Your mother has not slept in months
Where did you go?
Where did you go?
Where did you go?

On Mansfield Street in London town
Policemen have been up and down
Where did you go?
Where did you go?
Where did you go?

Where did you go?
Where did you go?
Where did you go?
